

# CERTIFICATE IN LEADING ONLINE COLLABORATION

- The global Scandinavian  
leadership program

## A 100 % online leadership development program, that is truly personal and interactive

The **LEADING ONLINE COLLABORATION (LOC)** program will improve your skills to lead teams of people meeting online from all over the world. By using free online services, we not only train your ability to lead online collaboration, but also become familiar with state-of-the-art tools that you can apply in your own organization.

*"The intense weekly meetings gives you the opportunity to practice what you learn online directly in your real job. This has much greater impact than being away for a physical course."*

- **Ulrich Bargum**, MBA, Director Product Application Engineering at Danfoss

During a 7-week period you will learn and discuss online with other leaders from around the globe, but also interact with [guest experts and speakers](#) who will share their learnings and experiences. All sessions will be led and moderated by Lars Hoffmann, Henley Executive MBA tutor in Personal Development.

With the increased international focus on **"The Scandinavian Model" as a source of inspiration**; we believe that the Scandinavian approach to leadership supporting collaboration, trust, inclusion and equality can be increasingly relevant for business leaders to achieve results in a globalized world characterized by complexity and increased speed and rates of change.

### FACTS ABOUT THE PROGRAM
